

Postdoctoral Fellowship in Machine Learning/Computer Vision

RCVLab, Dept. Electrical and Computer Engineering, Queen's University, Canada

Location: Kingston, ON, Canada

Start Date: 1st January 2021 (or earlier)

Position Description: Postdoctoral Fellow

Description: A Postdoctoral Fellowship is available in the Robotics and Computer Vision Lab (RCVLab) in the Department of Electrical and Computer Engineering at Queen's University. The position will be under the supervision of Prof. Michael Greenspan, and is available for one year, with the potential for an additional year's extension. The Postdoctoral Fellow appointed to this position will be actively involved in all aspects of the RCVLab and Dr. Greenspan's research, including project supervision and management, research development, co-publication, collaboration in developing initiatives.

Employment Term: The term is part-time, for a duration of 12 months, starting January 1st 2021 (or earlier), with a possibility of extension.

Candidate Qualifications and Role: The candidate will have a demonstrated background and expertise in Deep Learning applied to Computer Vision, ideally with expertise in 3D vision. A solid publication record and excellent implementation skills are essential, and industrial experience is beneficial. Applicants are expected to have finished, or be close to finishing, their PhD degrees.

How to Apply: Interested applicants should email a Cover Letter, CV and any supporting material to Prof. Michael Greenspan at michael.greenspan@queensu.ca using the subject line "RCVLab PDF 2020". Only candidates selected for an interview will be contacted. Applications will be accepted until position is filled.

Queen's University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. Queen's University is committed to employment equity and diversity in the workplace, and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, Canadian citizens and Permanent Residents will be given priority.

More information about the RCVLab and Dr. Greenspan's research is available at:
