The Department of Electrical and Computer Engineering at Queen's University requests applications from suitable qualified candidates interested in teaching the following undergraduate course in the 2020-2021 academic session.

Fall Term Course: September 1, 2020 – December 31, 2020

Anticipated course enrolment: 250

**Course Description:**

**APSC 200      Engineering Design and Practice II      F/W K 4**

In this course students will participate constructively on teams to create solutions to open-ended complex problems, using standard design methods and tools. This project-based course provides instruction primarily in the first 6 weeks of the semester focusing on problem scoping, creativity and idea generation, decision making incorporating technical, economic, societal, and environmental factors, safety, engineering codes and regulations, and engineering ethics. The final 6 weeks of the course centre around a design project delivered by each discipline. This course is integrated with APSC-293, and coordinated by the same instructor.
